divyanshj.16@gmail.com | +91 8800 489 598

EDUCATION

IP UNIVERSITY
B.Tech in Electronics & Comm.
Expected June 2019 | New Delhi, India
CGPA: 8.42/10 Till Now

CBSE BOARD
XII
Grad. May 2015 | New Delhi, India
Grade : 96%
X
Grad. May 2013| New Delhi, India
CGPA : 9.6/10

COURSEWORK

Machine Learning (CS229)
Convolutional Neural Nets(CS231n)
NLP with Deep Learning(CS224n)
Deep Learning.ai
Python for Data Science
Mathematics I-IV
Signals and Systems
Data structures and Algorithms

SKILLS

LANGUAGES
• Python • Javascript • C++
• C • Shell • Ruby

FRAMEWORKS
• TensorFlow • PyTorch • Scikit-learn
• gym • fastai • Django • Rails • ArcGIS

SIDE PROJECTS

Nand2Tetris | Feb 2017-Jun 2017 | URL
Built a virtual computer starting from NAND gates all the way to an assembly language and a VM language

PropGage | Feb 2018 | URL
A fintech based web platform for borrowers to get loan through bidding on their mortgages

Prya | April 2018| URL
A platform for educating startups and connecting them to investors.

INTEREST

•Football •Blogging •Research

EXPERIENCE

GEONUMA SOFTWARE - ESRI | DEEP LEARNING INTERN
May 2018 – Present | Delhi, India
- Added support for Object Detection and Semantic Segmentation models training and deployment in ArcGIS Python API. [Blog]
- Developed various demos for presentation in Esri conferences. [Esri UC 2018]

TWF FLOURS | DATA SCIENCE AND MACHINE LEARNING INTERN
Jun 2017 – Aug 2017 | Noida, India
- Automated the task of data collection from Amazon seller APIs
- Created database structures to store collected data.
- Created intelligent models to predict the next order of each customer.

DEEP LEARNING PROJECTS

SELF ATTENTION BASED VISUAL DIALOGUE
September 2018 – November 2018 | Delhi, India
- Improvised the results by adding self-attention over images.
- Dataset used: VisDial v0.9

IMAGE CAPTIONING
Jan 2018 – Feb 2018 | Delhi, India | Project URL
- Implemented RNN and LSTM in raw numpy and used vgg16 for image features.
- Used MS-COCO dataset for training and validation.

GAN COMPARISONS
Feb 2018 – Mar 2018 | Delhi, India | Project URL
- Comparison of Vanilla GAN, LSGAN, and DCGAN on MNIST.
- Implemented the above architectures in both PyTorch and TensorFlow.

RESEARCH

EFFICIENCY EVALUATION OF DEEP LEARNING CLASSIFIERS
Jan 2018 - April 2018 | Delhi, India
- Poster published in IEEE SoutheastCon 2018, Florida.
- Studied MLP and CNN architectures on MNIST to test Google Colaboratory.
- Devised a new metric to evaluate the performance of a classifier.

MISCELLANEOUS

- AI student ambassador at **Intel Corporation**, where I conduct meetups and speak on various AI topics.
- I am Delhi chapter ambassador of **Nurture.ai AI saturdays** where I conducted over 12 meetups from December 2017 to April 2018.
- Selected twice for **University of San Francisco's Fast.ai fellowship** programme as an International Fellow.

ACHIEVEMENTS

2018   Awarded 5000 USD under **Intel Early Innovation programme**
2018   15th rank in hackerearth competition out of 6k participants
2018   4th in NSIT Fintech Hackathon
2015   Ist in school and top 5%ile in Delhi in CBSE boards
